SUB D97
C1
--39. A graphic user interface (GUI) instantiated by computer software, the GUI representing a self-organizing marketplace for exchange of a selected type of one of goods and services, comprising digital information blocks generated by a plurality of respective users, wherein:
the digital information blocks are disposed in an order established by all of the users:
each of the digital information blocks is represented in the GUI by graphic indicators, and
each of the digital information blocks includes an indicia of priority that one of the users attaches to an associated one of the digital information blocks.--
